MISSING MAN'S BODY IS FOUND IN THE MARSH

The body of E. A. Eikerenkotter, who disappeared July 31 after telling fellow employes at the Western Meat Company, where he was a government meat inspector, he intended to kill himself, was found in two feet of water in a marsh at San Bruno Thursday. His throat and right wrist were slashed. Bull Taylor discovered the body and took it to relatives in South San Francisco.

Last Sunday Eikerenkotter gave his wife all the money he possessed, except $1. He took his gun and said he was going into the hills west of San Bruno to hunt, but made no mention of the suicidal intentions of which he had spoken while at work.

The deceased was 37 years old and is survived by a widow, two sons and a daughter, all under seven years old. George Eikerenkotter of this city and Ex-Supervisor Julius C. Eikerenkotter of South San Francisco are his uncles.

Eikerenkotter was born in this city near 37 years ago when his father, the late Edward A. Eikerenkotter, was serving as county clerk. The elder Eikerenkotter was elected two terms as county auditor and in 1885 was chosen county clerk filling two terms, afterwards becoming a deputy under J. F. Johnston for six years. He left the county clerk's office in 1895.

He had two sons, Parker and Ernest, and a daughter, Kate. They were three pretty children, Ernest being an exceedingly handsome boy. Shortly after Mr. Eikerenkotter gave up his office the family left here and very little has been heard of any of its members since.

August Eikerenkotter, the father of the county clerk, came to Searsville and conducted a hotel in the fifties, selling out when the Spring Valley Water company bought all the land on the site of the old town. The Eikerenkotter have been identified with the political history of San Mateo county for over 60 years.

BOY SCOUTS CAMP AT KENWOOD

The local troop of Boy Scouts are encamped at Kenwood, Sonoma county, in one of the loviest spots that beautiful country can boast of. There are forty-five Scouts in camp under the personal direction of Scout Master Frank Griffin, aided by Assistant Scout Masters Kendall Towne, Stephen Kreiss and Frank McAuliffe. Mrs. Valencia of Redwood City fills in a perfectly satisfactory manner the responsible post of chef. Discipline in camp is semi-military and results are splendid. Everything about the camp is spick and span, owing to the rivalry between the different tent squads in the race for the distinction of having the neatest and best kept tent.

Sunday, August 7th, will be visitors' day in camp. A trip to "The Valley of the Moon," made famous by the late Jack London, and now more famous by the presence of the Redwood Scouts is a treat Redwood city people should avail themselves of. The Scouts are preparing to entertain as many of their friends as will come. Persons leaving Redwood City on the 6:24 a. m. train for San Francisco can connect with the 8 a. m. boat from the ferry. The trip may be enjoyably made by auto.

THOMAS O. TOLAND APPOINTED TO THE SUPERIOR JUDGESHIP

Thomas O. Toland, is the luckiest Democrat in the State of California. He graduated with honors from the State University with the class of '78. He majored in law and began practice in one of the southern counties. About eighteen years ago he made a campaign in this district for railroad commissioner, that was before the commission was legislated out of office. The district was overwhelmingly republican. He made a close to house campaign and was defeated, defeating his republican opponent by a big vote. He was reelected for two terms. This week Governor Stephens appointed him a superior judge for the County of Los Angeles, he still being a democrat. Toland was very well-known here 20 years ago. He certainly is a lucky Democrat.

SHERIFF'S OFFICE IN SEARCH FOR FATHER PATRICK HESLIN

For the past three days Sheriff M. Sheehan has headed a posse in the vicinity of Colma in search for Father Patrick E. Heslin who went on a sick call from his parochial residence on Tuesday evening with a strange man. The man wore a heavy overcoat that was buttoned up about his ears and had his face partly concealed with heavy eye glasses. He said he had a friend who was dying and wanted the last rites of the church. This was the last seen of the priest. Yesterday it was believed that the clergyman was held for ransom by a gang of blackhanders. Up until a late hour last evening the mystery remained unsolved. The Sheriff is still searching for the priest. His office received no word from him yesterday.

Mr. Cloud suggested that an effort should be made to have Pigeon Point, Pomponio, Bell, La Honda, Alpine, Sunny side and Wurr districts unite with Pescadero in the establishment of an agricultural high school where the young folks of the coast side could study agricultural problems as well as academic subjects. The people then took part in the discussion and it was decided that Mr. Asa Weeks, Mr. J. C. Williamson and Mr. Carl J. Coburn should act as a committee to get the matter started.

Why can't Redwood City be similarly supplied with fire fighting apparatus

That wonderful smile of Charlie's, and which never wears off, and which is the principal asset of the firm was seen on our streets last Tuesday when Charles was waiting a feminine customer he had dated for the day. COUNTY GOVERNMENT ACT BECAME OPERATIVE JULY 29

Joy and Gloom both held forth at the court house on Monday, looking daggers at each other, ready for a mix-up, but Joy appeared to have the stage and to have things more his way.

The county government act became operative on July 29, and those whose salaries were raised by this law received two days of the raise on Monday, hence the reason for the appearance of Joy. The salaries of the greater portion of the county officers were also raised but they will not receive their extra compensation until they are re-elected, hence the presence of Gloom.

Those who received a raise in salary were the three deputy sheriffs, who get $25 a month more, Miss Dickey, chief deputy in the county tax collector's office $25, Mrs. Morgan, chief deputy assessor $25, Mrs. Robert Letts, chief deputy recorder $25, Miss E. L. Falvey, chief deputy county clerk $25, Deputy Clerk Clement Nash $25. Mrs. Nash was allowed two extra deputies. She has appointed Miss Nancy Nunn, who for many months has done extra work in the office, a regular copyist and Miss Annie Bullivant, who has been the stenographer in the law office of Ross and Ross for the past two years a regular deputy. District Attorney Swart has also been given a deputy under the new law. Edward Stack, the competent chief deputy auditor, was also given a raise of $25 a month. This position is a trying one and one that requires much clerical ability to fill. His salary should be in keeping with the work required.

She went to Europe partly for business and partly for pleasure and on her return will be able to give to her San Francisco patrons the benefits of her European observations.

JUDGE HOLDS STEALING RIDE NO CRIME—HIGH COST OF TICKET JUSTIFICATION

The Southern Pacific Company's police officers brought to the county jail on Wednesday evening eleven hoboes arrested for stealing a ride on the freight cars running between here and the city. Next morning the prisoners were brought before Judge Ray Griffin who promptly discharged them holding that stealing a ride on freight trains is no crime. The learned judge probably read a recent decision of Judge Dietz of Philadelphia. The following is an account of the decision appearing in an eastern paper.

Stealing a ride on a freight train is no crime at the present rate of railroad fares, according to Judge Dietz of the local junior judiciary.

John Drew—not the actor, but a Cincinnati boy—and Roy Chapman of Chicago were brought into his court. They had been found in a freight car in the Pennsylvania railroad yard.

The young men told the magistrate they were trying to get from Chicago to New York to find work. They hadn't much money, so when the opportunity to hop a freight came along they took it.

"I don't blame you," said his honor "for hopping a freight train at the present rate of railroad fares. To buy a ticket from Chicago to New York you would have to be either a shipyard riveter or a bootlegger."

Magistrate Dietz then handed the men a dollar and a half to get something to eat and advised them to try to get to New York by one of the many motor trucks making daily trips along the Lincoln Highway.

ANNUAL HARVEST BALL

The third annual harvest ball took place at the Skyline Ranch, the home of Mr. and Mrs. E. L. Brown of La Honda, last Saturday evening. Following the usual custom a barn dance was enjoyed. This affair is always looked forward to with keen delight for months by the country-side and guests from neighboring cities. The event takes place when the harvest days are over and the farmer begins to enjoy the result of his labors. The affair on Saturday evening was even more enjoyable than any of its precedessors. Large crowds were present from San Francisco, San Jose, Redwood City, Palo Alto and Menlo Park. An orchestra furnished catchy music for the mazy waltz, quick two-step and inspring turkey trot and other dances dear to the heart of the terpsichorean. The meeting of old friends at these gatherings add to the pleasure of the occasion. At midnight a delightful supper was served and oft what a repast it was consisting of the choice viands of the farm, apple pie, chicken raised on corn for the occasion and ice cream from the milk of the ranch and fruit that grew down by the creek not far from the old farm yard. Late in the morning the sleepy guests departed with considerable reluctance visioning the next harvest ball twelve months hence.

THE BUILDING TRADES OF COUNTY ARE OUT

The building trades of San Mateo county went out on a strike on Thursday evening, the plumbers at their meeeting held at San Mateo ordered a strike. The painters, electricians, carpenters and other crafts followed so that none of the men in those trades are working. The strike is only called in San Francisco, Alameda county and San Mateo county.

There is no strike in Santa Clara county. There the men voluntarily cut their wages a dollar a day. There seems to be no immediate hope of a settlement.

30x3½ STANDARD NON-SKID

The Fastest Selling Tire In America

The increasing popular demand for the Firestone Standard 30x3½ inch tire over a period of years has given us big volume. Our Plant No. 2 devoted wholly to this size tire with a capacity of 16,000 tires and 20,000 tubes per day cuts costs on every operation.

On May 2, we dropped our price to $13.95 passing on to the car owner the full benefits of this big sales volume and this labor-saving plant. This tire has been our standard for years---four plies long staple fabric---extra gum between plies---heavy non-skid tread. The greatest value ever offered car owners. Insist on Firestone.

Our Cord Tire Values

Firestone Cord tires are made exclusively in Plant No. 1. Our process of double gum-dipping each ply of cord gives thicker insulation. The massive non-skid tread, with extra thickness where wear is most severe, gives real effectiveness in holding the car against slipping and adds many extra miles of service.

Firestone Cord tires are sold at the lowest prices in cord tire history: 30x3½, $24.50; 32x4, $46.30; 34x4½, $54.90.

VOTE FOR HIGH SCHOOL BONDS

Everyone who believes in education, who believes that every boy and girl should receive a proper school training for his or her aid in making life's battle, should vote for the high school bond election on August 26. The money received from this election will go to provide a building suitable for housing the students and giving them ample room for their work. The structure will be a credit to the citizens of the district as well as a monument to the progress and liberality of the taxpayers. Let every voter come out on that day and cast his ballot for this laudable cause. Bring your neighbor and let the vote be overwhelming.

ELECTRICITY VS. STEAM

With the proposal to electrify the steam railways of the west becoming a matter to which engineers and transportation experts are with seriousness giving their attention, the demand for the electrification of the peninsula lines of the Southern Pacific, for such the ever growing sentiment in favor of the project may be correctly termed, is one which the residents of this vicinity and of communities between San Jose and San Francisco, may well be deemed worthy of concerted agitation, that necessary forerunner of well directed action.

As the necessity of relegating old Dobbin to the back pasture and consigning the family surrey and horse-drawn delivery vehicles and maving vans to the junk pile for atime stood in the way of the general advent of the automobile, so with the electrification of steam railways, the necessity of junking expensive steam equipment is the first obstacle encountered. Daring pioneers in the use of automobile transportation soon settled the doubts of the less daring ones with the two-word verdict "It pays," and the automobile was with us to stay, and the kneil of the horse-drawn vehicle sounded forever.

From pioneers in the field of electric railways transportation on an extensive scale, the same verdict has already come. It pays.

Electrical energy can be supplied cheaper than can oil or coal. Electrically operated trains are not burdened down with their own fuel. More trains can therefore be operated on faster schedules, and the result is the creation of new business. Suburban districts grow in proportion as facilities for traveling to and from adjoining cities are bettered, and well populated suburbs mean more business for the railway company whose line traverses them. It pays.

To the layman it appears that the electrification of the peninsula lines of the Southern Pacific company would likewise pay, and this opinion would be confirmed by experts.

But think not those from whom this particular electrification project has received endorsement are actuated wholly thruogh unselfish motives. Better transportation facilities between San Jose and San Francisco would add to the population of every community at and between these two points, and the effects of a growing population are always registered on the barometer of prosperity.

San Jose's city officials are to be commended for adding their indorsement to this project. Let us not stop with mere formal indorsement, however. Let our approval be active, not passive. Let us join forces with other communities and organizations working for the realization of this transition to better transportation. Let the agitation be concerted and whole hearted that it may be heard and heeded.

We know not how soon the goal will be realized, but realized it will be, and speedier, if every community organization and official concerned give to the project the attention its merit warrants.—Mercury, San Jose.

GERMANY ON THE JOB

According to a statement attributed to John M. Glenn, secretary of the Illinois Manufacturers' Association, "Germany is the only European country that is working to any extent. Practically the rest of them are loafing. They want the United States to give them more money so they can go out and play some more."

This indicates that history may repeat itself by demonstrating that the conquered nation most quickly gets back to normal and eventually outstrips its conquerors in the pursuits of peace. In one sense, Germany was not conquered, notwithstanding it was forced to sign a treaty dictated by its enemies. German territory was never invaded. German property was not destroyed, the German people never felt the humiliation of enemy occupation of any considerable area. The force of circumstances compels the Germans to get back to work, while large numbers of people in the victorious nations give way to the desire to take a long rest.

In the "good old days" it was the custom of the victor to carry away a lot of prisoners to be made slaves. In some cases, such as the overthrow of Carthage, the victory was followed by complete destruction. No such penalty was visited upon Germany. In fact, every opportunity is now extended to Germany to get back to work in order that she may pay her reparation debts, and, when thus back at work, Germany will be in a fair way to prove a dangerous commercial rival to her former enemies.

The fact that Germany is back at work is something that must be kept in mind in shaping our own commercial policies, particularly in the framing of tariff bills, the development of foreign trade and the maintenance of a merchant marine.

TRIPLE EFFORT FOR LABOR

The republican administration is now engaged in three lines of effort for the promotion of the welfare of American labor. It is restricting immigration, framing an import tariff on cheap foreign goods, and building up our export trade.

Restriction of immigration has a double purpose—to relieve the labor situation at a time when ther are more men than there are jobs, and to give opportunity for the Americanization of the foreign element already here before admittting any considerable number of new immigrants. In both particulars the effect upon American labor will be good, for there will not only be less competition in numbers of workmen but as a result of the Americanization of the immigrants their standards of living will be raised and they will expect and ask the same wage standards the American workman desires.

The enactment of an import tariff law will supplement the restriction of immigration. There is little use protecting the American workman from the competition of immigrant labor if we are to leave our ports open to the free admission of the products of foreign labor. A workman who can come to this country and lower the standard of wages and living by his competition here can also lower the American standard by producing goods at home and shipping them here to be sold in competition with the product of American labor. This is a fact frequently overlooked by democrats who favor restriction of immigration but oppose any restriction on the importation of the products of the labor of the men they do not wish to admit as immigrants. In truth, if we are to choose between admitting foreign labor or the products of foreign labor, the former is preferable, for the foreign laborer adimtted to this country will spend much of his earnings here, while the foreign laborer who produces at home and ships the product here, spends his earnings abroad. It is not proposed to enact an import duty that will be absolutely prohibitive, but to make the import tax high enough to represent the difference in cost of production, and thus put the American producer on an equality with his foreign competitor.

In building up export trade the government is pursuing several plans —permitting combinations for export sales, sending trade representatives to all the principal nations, and maintaining a merchant marine which will be an agency for the establishment of regular trade routes as well as extending the opportunity for shipment of American goods to markets not hitherto reached. Every dollar's worth of American goods shipped abroad means a dollar to be expended for the payment of American wages or the purchase of American raw materials.

War's aftermath finds several million men out of employment. Government can not find a complete remedy for such an economic condition. The present administration is doing everything possible, however, to afford all the relief that can be attained through legislation and administration.

THE OTHER FELLOW'S GOODS

We notice that the people who want Europe to pay her debts in goods are not producers of similar goods themselves. We do not hear any American woolgrowers asking that Europe pay her debt in Australian wool, or in woolen goods made in Europe. We do not hear any cotton manufacturers or the wage earners in cotton or woolen mills asking that European debts to America be paid in goods scuh as they produce. They are not anxious to lay off their jobs and forego their wages while the debts are being paid. Those who want the debts paid in goods have the other fellow's goods in mind

P. O. SAVINGS

Postmaster General Hays contemplates a cut of about $15,000,000 in the cost of running the Post Office Department. He gives assurance that in making the reduction no efficient employe will be discharged. Since the inauguration of the economy program, departmental and bureau chiefs are vying with each other to see who will turn in the best record at the end of the fiscal year. In spite of the fact that appropriations have already been made to cover the cost of running the Government until July 1, 1922, substantial savings from those totals are sure to be realized.

Boston Transcript.—Disarmament is largely a relative term, as is shown by the fact that Japan has an army many times larger than that of the United States in proportion to her population.

BOARD OF SUPERVISORS

The board of supervisors met in regular session Monday, August 1, 1921, there being present Dr. C. V. Thompson, presiding; T. L. Hickey, Rosalie M. Brown, John MacBain and Manuel Francis.

Supervisor MacBain addressed the board and stated that F. H. Huddert had requested of him that action be postponed until August 15th on the matter of the controversy over the closing of the Greer road at Woodside, a complaint having been filed with the board on July 18 by A. C. Hellman. An order granting the request of Huddert was made by Chairman Thompson.

Miss T. Bruener of Menlo Park appeared before the board and complained that Japanese who are operating land adjoining hers were dumping sewage water into the creek alongside of her property, causing, she claimed, not only a very disagreeable odor, but a breeding place for mosquitos.

On motion of Supervisor Hickey, seconded by Supervisor MacBain, Mrs. Nash, the clerk, was directed to notify Dr. F. Holmes Smith, county health officer, to have the unisance abated at once.

J. H. Hyman, representative of the Inter-State Causality Company, appeared before the board in compliance with a recent request and explained the plan of liability insurance, as written by his company protecting supervisors against accidents or property damage in connection with the carrying on of any county work under the control of the supervisors. In order to submit an estimate to the board as to the cost of covering each supervisor with such liability insurance, Heyman explained that it would be necessary for him to be furnished with a survey of the county, including the number of public buildings, roads, bridges, etc. On motion of Supervisor Hickey, seconded by Supervisor MacBain, it was ordered that County Engineer Geo. A. Kneese be instructed to furnish the above information.

Miss Edna Holroyd, county libararian, submitted a budget covering the proposed county library expenditures for the coming fiscal year, amounting to $10,335. She also submitted a report covering the activities of the library ending June 30, 1921. Miss Holroyd addressed the board in reference to her budget report, explaining in detail the reasons for a larger appropriation for the coming year which amounted to $6,730.

Both reports were ordered filed.

County Horticultural Commissioner A. W. Tate submitted his report for the month of July, 1921, showing a total of 69 shipments and 9,662 packages and plants inspected.

County Treasurer P. P. Chamberlain addressed the board and asked that he be allowed $50 a month for additional help in his office, provision for which was made by the new county government bill passed at Sacramento.

Supervisor MacBain addressed the board and stated that he believed Mr. Chamberlain should have the same allowance as other officers in the courthouse, $75, and on his motion seconded by Supervisor Francis, this amount was allowed to procure the additional help.

A communication was received from County Superintendent of Schools Roy W. Cloud, notifying the board that the Sunnyside school district, located on the Pescadero creek, in the Fifth township has less than a daily average of five children during the school year, 1920-1921, and therefore, in accordance with the law, he recommended that the district be temporarily suspended. The recommendation was accepted by the board, on motion of Supervisor Hickey, seconded by Supervisor Brown.

A communication was received from J. H. Hatch of San Mateo asking if the board desired to further use his building at the above place for a branch jail, and if not he would like to have the key turned in by the constable, he claiming that he was still waiting to hear from the board as to what they intended doing in the matter. Supervisor Hickey addressed the board and recalled a statement made by Mr. Hatch when he appeared before the supervisors last April and said that a verbal notice from the board to the effect that the building was no longer needed would be sufficient for him. This notice, the board all agreed had been given at that time.

Supervisor Brown said she would see that the key to the building was turned over to Mr. Hatch.

A communication was received from the trustees of the Three Cities Mosquito Abatement District, stating that the estimated amount required for operating expenses of the district during the coming fiscal year would be $10,000.

A communication was also received from the Pulgas Mosquito Abatement District, giving the estimated amount required for operating expenses during the coming fiscal year at $8,500. Both communications were ordered referred to the county auditor.

Action in the matter of the petition of Dr. Ralph B. Scheier and others, presented at the last meeting of the board, asking for the construction of the concrete bridge over Cordilleras creek in the Second township, was continued until the meeting of August 15.

A communication was received from the State Railroad Commission, notifying the board that a hearing in the matter of the application of the C. H. Holt Realty Company for permission to furnish water to the residents of Emerald Lake and Oak Knoll Manor, would be held at the courthouse in Redwood City on August 25, 1921 at 10:30 a. m.

A resolution prepared by D. C. Imboden, secretary of the Three Cities Chamber of Commerce, whereby the board of supervisors requested the Southern Pacific Company to furnish modern electric transportation service for San Mateo county, was adopted on motion of Supervisor Hickey, seconded by Supervisor Brown, and a certified copy of the same was ordered sent to the Southern Pacific Company.

A communication from Carstens & Earls, Inc., of San Francisco, making a bid of par with accrued interest for the remaining $44,000 of the Burlingame grammar school district bonds was ordered referred to District Attorney Swart.

A communication was received from the San Francisco board of supervisors reltaive to a meeting of the committees from that board with representatives from the San Mateo county board in connection with the improvement of the Bay Shore road in the First township. Action in the matter was postponed for two weeks.

A communication was received from Harriet B. Livermore of San Carlos, asking the board to make a reduction in the assessment of her property at that place. Mrs. Nash, the clerk, was directed to reply to the latter and inform Mrs. Livermore that the board would be unable to take any action in the matter on account of the letter having been received after the board of equalization had adjourned.

At the request of Chairman Thompson and on motion of Supervisor Hickey, seconded by Supervisor Brown, County Engineer George A. Kneese was instructed to inspect the steel bridge over the creek at Pescadero.

DECISION REVERSED BY HIGHER TRIBUNAL

The remittitur in the case of Henry N. Stetson against Sheriff M. Sheehan and others from the appellate court was received at the county clerk's office yesterday.

The case was brought by Stetson to compell Sheehan, as commissioner, to give him a deed to certain property at Montara on a foreclosure sale. The property was bought by George O. Rich as a judgment creditor. Stetson held as such he could not bid upon the property. Judge Buck held the same way. Sheehan was only a nominal defendant, the principal defendant being George O. Rich who appealed the case. The higher tribunal reversed the lower court, holding that Rich had a right to buy the property at the foreclosure sale. Ross and Ross represented the defendants in the case.

CALIFORNIA THEATRE IS PROVING VERY POPULAR

After about two years of darkness the old Bell Theatre, now the California Theatre, on Main street, opened its doors to the public under new management. The brilliant lights surrounding the entrance added much to the attractiveness of this popular playhouse. On the opening night the house was packed and all seemed to appreciate the evening's entertainment. It is the intention of the management to open only three days each week—Saturday and Sunday, with matinee both afternoons and on Tuesday evenings.

The house has been remodeled and is very attractive and comfortable.

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigaretty aftertaste.

Camels are made for men who think for themselves.
